Cross Sectional Shape:

Flat

Width:

Between 4.4700 inches and 4.5300 inches

Edge Shape:

Rectangle, no holes

Length:

Between 4.4700 inches and 4.5300 inches

Corner Radius:

0.3100 inches

Body Thickness:

0.4300 inches

Securing Device Type:

Special

Material:

Aluminum alloy 356.0

Material Specification:

Qq-a-596, 356, t6 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
