Cross Sectional Shape:

Square or rectangular recess

Width:

8.5100 inches

Flange Thickness:

0.0500 inches

Edge Shape:

Rectangle, multi holes

Length:

11.4000 inches

Inside Width:

8.4100 inches

Inside Length:

0.7000 inches

Inside Corner Radius:

0.1200 inches

Body Thickness:

0.0500 inches

Securing Device Type:

Special

Material:

Aluminum alloy 6061

Material Specification:

Qq-a-250/11 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
