Width:

1.5000 inches

Thickness:

0.0625 inches

Length:

4.8750 inches

Mounting Hole Diameter:

0.1562 inches all holes

Mounting Hole Quantity:

1

Mounting Hole Type:

Unthreaded

Special Features:

Mthere are two squares with dia. 0.5625; they are located from left end to center of square is 0.7500 in.; from center of square to center of second square is 3.375; the from bottom to center of square is 0.3750 in.

Material:

Nickel alloy 400

Material Specification:

Qq-n-281, class 1 federal specification single material response

Shape:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530d0
