**Chamfer Length:**

0.015 inches all ends

**Overall Length:**

36.000 inches

**Chamfer Angle:**

45.0 degrees all ends

**Overall Diameter:**

0.062 inches

**Product Name:**

Pin, hinge

**Special Features:**

Chamfer angle in degrees: 45.0; o/a length: 35.985 in. Min. And 36.015 in. Max.; diameter: 0.062 in. Min. And 0.063 in. Max.; material: steel qq-w-423 form 1 comps fs302 or fs304 or fs316 cond b; surface treatment: cadmium qq-p-416 ty2, cl2

**Material:**

Steel comp 302 and steel comp 304 and steel comp 316

**Material Specification:**

Qq-w-423 form i, cond b federal specification single material response

**Surface Treatment:**

Cadmium

**Surface Treatment Specification:**

Qq-p-416, type ii, class 2 federal specification single treatment response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A03100
