Cross Sectional Shape:

Circular recess

Width:

8.140 inches

Edge Shape:

Rectangle, four holes

Length:

8.470 inches

Corner Radius:

0.750 inches

Body Thickness:

0.040 inches

Securing Device Type:

Turnlock fastener

End Application:

C130-j hercules

Special Features:

8 stud assembly, grommet, snap ring 2 on each side

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-362 cond 0 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A531c0
