**Cross Sectional Shape:**

Arched

**Inside Corner Radius:**

0.060 inches

**Body Thickness:**

0.050 inches

**Securing Device Type:**

Threaded fastener

**Special Features:**

Item shape, 1 end straight, other end rounded. 8 holes 0.140 dia. Original drawing name "cover, side"

**Material:**

Aluminum alloy 6061

**Material Specification:**

Qq-a-250/11 federal specification single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A531c0
