Width:

Between 3.240 inches and 3.260 inches

End Application:

Lgm30g

Mounting Method:

Unthreaded hole

Section Length:

Between 19.970 inches and 20.030 inches

Product Name:

Slide, chassis

Special Features:

Intermediate and stationary sections supplied in pairs for right and left side, used with p/n cb1641-99-0024, nsn 5340-01-377-7214 to make complete assembly, includes locking feature

Style Designator:

2 - piece

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03100
