First Leg Length:

0.900 inches

Second Leg Length:

1.980 inches

End Application:

Electrical wiring, c130-j acft

First Leg Thickness:

0.063 inches

Second Leg Thickness:

0.063 inches

Center Section Height:

2.330 inches

Center Section Thickness:

0.063 inches

Second Leg Angle:

0.220 radians

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/5 federal specification single material response

Style Designator:

Double angle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A042a0
