**First Leg Length:**

0.900 inches

**Second Leg Length:**

1.980 inches

**End Application:**

Electrical wiring, c130-j acft

**First Leg Thickness:**

0.063 inches

**Second Leg Thickness:**

0.063 inches

**Center Section Height:**

2.330 inches

**Center Section Thickness:**

0.063 inches

**Second Leg Angle:**

0.220 radians

**Material:**

Aluminum alloy 2024

**Material Specification:**

Qq-a-250/5 federal specification single material response

**Style Designator:**

Double angle

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A042a0
