Overall Length:

2.500 inches

Overall Width:

2.200 inches

Material Thickness:

0.063 inches

Mounting Hole Diameter:

Between 0.193 inches and 0.199 inches

End Application:

Tube support t-bracket for the infrared power supply and filter rack on the c-130j aircraft

Center Section Width:

0.700 inches

Top Section Width:

0.700 inches

Product Name:

Tee-tube support, infrared power supply and filter rack

Special Features:

4 mounting holes

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-250/5, t3 federal specification single material response

Style Designator:

Tee

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A042a0
