**Width:**

1.930 inches

**Overall Height:**

1.030 inches

**Material Thickness:**

0.063 inches

**Length:**

2.000 inches

**End Application:**

C-130 acft

**Mounting Method:**

Integral

**Features Provided:**

Triple prong

**Special Features:**

Mfr's name: clip - mlg center fairing

**Material:**

Aluminum alloy 2024 arm

**Material Specification:**

Qq-a-362, temp-t3 federal specification single material response

**Style Designator:**

U-shaped

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A03100
