Width:

1.930 inches

Overall Height:

1.030 inches

Material Thickness:

0.063 inches

Length:

2.000 inches

End Application:

C-130 acft

Mounting Method:

Integral

Features Provided:

Triple prong

Special Features:

Mfr's name: clip - mlg center fairing

Material:

Aluminum alloy 2024 arm

Material Specification:

Qq-a-362, temp-t3 federal specification single material response

Style Designator:

U-shaped

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A03100
