Tongue Hole Type:

Round, threaded

Cushioning Environmental Protection:

Corrosion resistant and heat

Material Thickness:

Between 0.029 inches and 0.035 inches

Fastening Device Type:

T-bolt

Loop Inside Diameter:

15.180 inches

Thready Qty Per Inch (tpi):

28

Thread Size:

0.250 inches

Special Features:

pressure 15 psia; operating temperature 1200 degf; trunnion material corrosion and heat resistant steel per ams5525 or corrosion and heat resistant nickel alloy per ams5586; strap and retainer material corrosion and heat resistant alloy sheet per ams5596

Material:

Stainless steel bolt

Material Specification:

Ams5596 assn standard single material response bolt

Style Designator:

Double t-bolt

Specification Data:

99207-5074t03 manufacturers source control

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A12700
