Center To Center Distance Between Bolt Holes Along Width:

2.625 inches

Center To Center Distance Between Bolt Holes Along Length:

3.625 inches

Wheel Quantity:

1

Safe Operating Load Rating:

1000.0 pounds

Material And Location:

Steel body and steel plate and plastic, polyurethane tire

Surface Treatment And Location:

Zinc plated body and zinc plated plate

Wheel Type:

Built up

Wheel Diameter:

8.000 inches

Effective Height:

9.500 inches

Features Provided:

Brake lock

Plate Style:

Square

Wheel Bearing Type:

Roller

Tread Width:

2.000 inches

Caster Plate Length:

4.625 inches

Caster Plate Width:

3.750 inches

Caster Plate Mounting Hole Diameter:

0.391 inches

Style Designator:

Swivel nonoffset

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A25600
