First Leg Length:

0.992 inches

Second Leg Length:

1.690 inches

End Application:

Tf-56 engine

First Leg Thickness:

0.095 inches

Second Leg Thickness:

0.095 inches

Features Provided:

Notched slide

Product Name:

Bracket, energy absorbing-ring

Special Features:

Heat treat and finish per drawing

Material:

Nickel alloy 625

Style Designator:

Angle

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A042a0
