Width:

1.000 inches

Thickness:

0.250 inches

Length:

3.376 inches

Mounting Hole Diameter:

0.406 inches all holes

Mounting Hole Quantity:

2

Mounting Hole Type:

Unthreaded

End Application:

Los angeles class ssn (688)

Mounting Configuration:

On centers, 2.500 inch apart

Product Name:

Plate, adjustable mounting, switch

Material:

Nickel alloy 400

Material Specification:

Qq-n-281, class 1 federal specification single material response

Shape:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530d0
