**Overall Length:**

4.734 inches

**Overall Width:**

1.280 inches

**Mounting Hole Quantity:**

2

**Overall Thickness:**

0.375 inches

**End Application:**

Seawolf class (ssn)

**Mounting Method:**

Unthreaded countersunk mounting holes

**Product Name:**

Inboard slider bearing retainer

**Special Features:**

4 corners have .06 in.X45 degree bevel; countersink hole dia. .531 in. @ 82 degrees, drill through hole dia. .281 in.

**Material:**

Steel comp 304

**Shape:**

Rectangular

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A514c0
