Overall Length:

4.734 inches

Overall Width:

1.280 inches

Mounting Hole Quantity:

2

Overall Thickness:

0.375 inches

End Application:

Seawolf class (ssn)

Mounting Method:

Unthreaded countersunk mounting holes

Product Name:

Inboard slider bearing retainer

Special Features:

4 corners have .06 in.X45 degree bevel; countersink hole dia. .531 in. @ 82 degrees, drill through hole dia. .281 in.

Material:

Steel comp 304

Shape:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A514c0
