Overall Length:

12.000 inches

Overall Width:

4.062 inches

End Application:

Los angeles class ssn (688)

Design Type:

Straight

Special Features:

Made from 4.500 inch bar stock; has one threaded (5/8-11unc-2b) hole on one crosswise end, centered on the top to bottom line, and line 2.500 inches down from top; on each bottom lengthwise edge, a section 1.489-1.494 x 0.404-0.407 inches is cut away

Material:

Copper alloy

Specification Data:

81348-qq-n-286 government specification

Specification Or Standard:

2 form and annealed condition and age hardened type and hot finish finish

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
