Overall Length:

12.000 inches

Overall Width:

2.000 inches

End Application:

Los angeles class ssn (688)

Design Type:

Straight

Special Features:

Made from 0.500 thk x 5.000 w flat bar cut down to 2.000 inches wide; see drawing for placement of holes

Material:

Copper alloy

Specification Data:

81348-qq-n-286 government specification

Specification Or Standard:

2 form and annealed condition and agehardened type and hot finish/as drawn finish

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A536n0
