Width:

0.380 inches

Thickness:

0.380 inches

End Application:

Used in the capstain assembly

Material Hardness Rating:

68.0 rockwell b

Product Name:

Pinch roller assembly mounting plates

Special Features:

Must include items 3, 10 and 11 to have complete assembly

Material:

Nickel alloy 400

Material Specification:

Qq-n-281, class 1 federal specification single material response

Shape:

Rectangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A530d0
