Material Thickness:

0.375 inches

Mounting Hole Diameter:

Between 0.380 inches and 0.420 inches

Mounting Hole Quantity:

3

Body Width:

5.000 inches

End Application:

Bradley; 2350-01-432-1526; hinge, htu

Reversible Feature:

Not included

Hinge Pin:

Included

Knuckle Quantity:

1

Pin Center To Body Edge Distance:

3.000 inches

Material And Location:

Aluminum alloy, 5086

Special Features:

Hinge is u-shaped; door plate is 3.000x5.000 with hinge on upper left edge and right corners rounded to radius of 1.000, has 2 mounting holes: one 0.500 diam, 2.725 from left edge and 1.500 from top, other 0.625-11 unc-2b, centered 4.375 from left and 1.500 from top; surface plate has lower right corner cut out 2.500 across x 2.335 up and has additional mounting hole 0.312-18 unc-2b through 2 walls

Style Designator:

Butt

Supplementary Features:

Material is aluminum, 5086-h321, specification astm b209 except 24, 000 psi min yield strength and 40, 000 psi min tensile strength; optional matl: alum, 5086-h32 or h116, specification astm b209

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A25100
