End Application:

2320-01-452-5579

Operation Method:

Friction

Piston End Connection Style:

Straight stem/stud mount

Extended Length:

4.750 inches

Protective Shield Type:

No protection

Err Default:

Err default

Piston End Shank Length:

1.250 inches

Special Features:

20threads per inch on the threaded shank and thread series is unf; name given by controlling agency is "vibration dampner"

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A07200
