Body Outside Diameter:

17.0 millimeters

Body Height:

16.0 millimeters

End Application:

Interim armored vehicle (iav), contractor logistics support (cls)

Product Name:

Splash cover

Special Features:

Material includes nut copper alloy with nickel plate surface treatment; splash cover silicone (vmq) elastomer; o-ring butadiene acrylonitril (bunan/nitrile/nbr) ; spring washer stainless steel type 301

Material:

Rubber silicone body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A02000
