Overall Width:

9.53 millimeters

End Application:

Helicopter, sea lynx mk88a, fuselage, westland helicopters ltd

Material Diameter:

0.5 millimeters

Center To Center Distance Between Loop And Mounting Hole:

15.0 millimeters

Distance From Loop Center To Tongue End:

20.5 millimeters

Loop Inside Diameter:

3.2 millimeters

Special Features:

Insert material - silicone rubber, band finish - annealed

Material:

Stainless steel band

Material Specification:

Ams 5528 assn standard single material response band

Style Designator:

Single loop

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A12700
