Tongue Hole Type:

Round, unthreaded

Slot Length:

0.200 inches

Overall Width:

0.500 inches

Diameter:

0.203 inches

Material Thickness:

0.093 inches

End Application:

C17a

Loop Inside Diameter:

1.255 inches

Special Features:

Center to tongue hole edge is 0.250 in. Along width. Tongue hole distance between center and tongue edge is 0.625 in. Clamp has 2 slotted holes in line that are 0.067 in. Wide. Center to slotted edge is 0.100 in. Along width. Material is injection molded nylon 6/6 heat stabilized, per astm d0466. Manufacturers nomenclature is clamp loop

Style Designator:

Single loop

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A12700
