Center To Center Distance Between Bolt Holes Along Length:

4.937 inches

Wheel Quantity:

1

Safe Operating Load Rating:

1200.0 pounds

Material And Location:

Plastic, phenolic wheel rim and steel, forged

Wheel Diameter:

6.200 inches

Effective Height:

7.750 inches

Features Provided:

Brake lock

Plate Style:

Rectangular

Wheel Bearing Type:

Roller

Swivel Bearing Type:

Tapered roller

Style Designator:

Swivel offset

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A25600
