General Purpose Resilient Mount - Page 1 of 1

View Online at <https://aerobasegroup.com/nsn/5340-01-506-7145>

Thread Size:

3/8-16 all threaded portions

Major Outside Diameter:

2.000 inches

End Application:

Control panel

Special Features:

Cylindrical vibration isolator, thread size 3/8 - 16 inch, length 5/8 inch; maximum load sideways shear 55 pounds

Height:

1.625 inches

Material:

Steel inner member

Style Designator:

Round int. Threaded flanges

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A535s0
