Center To Center Distance Between Bolt Holes Along Width:

3.000 inches

Center To Center Distance Between Bolt Holes Along Length:

6.000 inches

Wheel Quantity:

1

Safe Operating Load Rating:

800.0 pounds

Material And Location:

Plastic, polyurethane tire and iron wheel rim

Unpackaged Unit Weight:

14.000 pounds

Wheel Type:

Solid

Wheel Diameter:

5.000 inches

Effective Height:

7.500 inches

Features Provided:

Brake lock and shock absorber and swivel lock and swivel lubrication fitting

Plate Style:

Rectangular

Wheel Bearing Type:

Roller

Caster Plate Length:

7.000 inches

Caster Plate Width:

4.000 inches

Caster Plate Mounting Hole Diameter:

0.375 inches

Special Features:

Tread width is 1.875 in.

Style Designator:

Swivel offset

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A25600
