Overall Length:

2.130 inches

Overall Height:

3.300 inches

Overall Width:

1.880 inches

Mounting Hole Type:

Threaded

Base Thickness:

0.630 inches

End Application:

Hardware, misc. Fairing

Leg Thickness:

0.250 inches

Hole Quantity:

2

Angle:

90.0 degrees

Product Name:

Bracket, corner

Distance From End To Leg Along Length:

0.940 inches

Special Features:

Hmounting holes are 0.375-16 unc-2b; top corners are cut off at 45 degrees angle beginning 0.380 from top; center projection has oval hole, 0.656 w x 0.906 l centered 1.00 from end and 0.612 from side edge

Material:

Titanium alloy

Material Specification:

Mil-t-9046, t1-6al-4v (eli), condition a military specification single material response

Style Designator:

Center projection

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A042a0

Mil-std (military Standard):

Mil-t-9046 spec.
