Tongue Hole Type:

Round, threaded

Overall Width:

Between 0.208 inches and 0.228 inches

Material Thickness:

Between 0.086 inches and 0.094 inches

End Application:

2320-01-497-3435

Loop Inside Diameter:

Between 5.800 inches and 6.040 inches

Thready Qty Per Inch (tpi):

24

Thread Size:

0.312 inches

Thread Tolerance Class:

2a external

Material:

Steel comp 301 or steel comp 302 or steel comp 304

Material Specification:

Astm a240, heat resistant, cold finish assn standard single material response

Style Designator:

T-bolt

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A12700
