Overall Length:

2.150 inches

Overall Height:

0.500 inches

Overall Width:

2.500 inches

Material Thickness:

0.270 inches

End Application:

Link assembly control; w/s: seawolf class ssn

Product Name:

Stepped retainer

Special Features:

Has 2 countersunk bolt holes centered 0.625 inches from edges on the non-stepped portion of the retainer, with diameter of 0.531 in. Through and 0.970 in at 82 degree countersunk; 0.270 inch measurement is actually above the cut out portion (step) which is 0.840 inches wide and 2.500 inches long

Material:

Aluminum bronze

Material:

Copper alloy

Style Designator:

Anchor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T319-a
