End Application:

M65

Product Name:

Bracket assembly; upper attach

Special Features:

Bond per hp16-25, type xv11, class a; identify per mil-std-130; consists of 2 flanged round bushings; 1 bracket

Material:

Aluminum alloy

Material Specification:

Hmsi-1890, type ii, class 2, tem t6 mfr ref all material responses

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-a-8625, type ii, class i military specification all treatment responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A042a0

Mil-std (military Standard):

Mil-std-130 spec.
