# End Application:

M65

# **Product Name:**

Bracket assembly; upper attach

#### Special Features:

Bond per hp16-25, type xv11, class a; identify per mil-std-130; consists of2 flanged round bushings; 1 bracket

#### Material:

Aluminum alloy

#### **Material Specification:**

Hmsi-1890, type ii, class 2, tem t6 mfr ref all material responses

#### Surface Treatment:

Anodize

#### Surface Treatment Specification:

Mil-a-8625, type ii, class i military specification all treatment responses

#### Shelf Life:

N/a

#### Unit Of Measure:

--

### Demilitarization:

No

# Fiig:

A042a0

#### Mil-std (military Standard):

Mil-std-130 spec.
