Hole Diameter:

0.3125 inches

Edge Shape:

Four radii sides, four holes

Securing Device Type:

Threaded fastener

Mounting Opening Shape Style:

Unthreaded hole

End Application:

Value oper

Special Features:

Cover assembly for actuator with pushbutton and lights for terminal compartment

Material:

Copper alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531c0
