End Application:

Accumulator 3; w/s: virginia class submarine, ssn-774

Material Hardness Rating:

Between 61.0 rockwell b and 77.0 rockwell b

Special Features:

Retaining ring dimentions (5.745"l x 1.12"w), inside ring circle 3.5"dia, ring has 8 holes on top (centered) 4.375"dia, 8 x 0.531" to 0.781" depth; inside circle are 45 degrees apart, with a sawcut 2 x .06" after machining

Material:

Nickel-copper alloy, qq-n-281, class a

Material:

Nickel alloy 400

Material Specification:

Qq-n-281, class a federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T319-a
