Width:

4.410 inches

Thickness:

0.125 inches

Length:

3.800 inches

Mounting Hole Diameter:

0.248 inches all holes and 0.254 inches all holes

Mounting Hole Quantity:

3

Aperture Diameter:

Between 0.872 inches and 0.882 inches

Mounting Hole Type:

Unthreaded

End Application:

Plate, top, stow switch

Aperture Shape:

Round

Product Name:

Plate, top

Special Features:

See drawing for other specifications

Material:

Titanium alloy

Material Specification:

Astm b265, grade 2, condition a, finish no. 20 assn standard single material response

Shape:

Triangular

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530d0
