Width:

6.000 inches

Thickness:

0.190 inches

Length:

6.250 inches

End Application:

Boat battery box

Product Name:

Heater plate

Special Features:

Cut out feature 1.750 inches in length x 0.750 inches in width located along one length side edge 2.250 inches from end

Material:

Aluminum

Material Specification:

Qq-a-250-11 federal specification single material response

Surface Treatment:

Anodize

Shape:

Flat

Surface Treatment Specification:

Mil-a-8625, ty1, cl2, color black military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530d0

Mil-std (military Standard):

Mil-a-8625 spec.
