**Width:**

6.000 inches

**Thickness:**

0.050 inches

**Length:**

6.250 inches

**End Application:**

Boat battery box

**Product Name:**

Heater plate

**Material:**

Aluminum

**Material Specification:**

Qq-a-250-11 federal specification single material response

**Surface Treatment:**

Anodize

**Shape:**

Rectangular

**Surface Treatment Specification:**

Mil-a-8625, ty1, cl2, color black military specification single treatment response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A530d0

**Mil-std (military Standard):**

Mil-a-8625 spec.
