Mounting Hole Quantity:

5

End Application:

Ge f110 engine

Criticality Code Justification:

Agav

Product Name:

Support bracket

Special Features:

Drilled holes have nut plates attached. Material thickness is 0.080 inches

Material:

Nickel alloy

Material Specification:

Ams 5599 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A042a0
