**Mounting Hole Quantity:**

5

**End Application:**

Ge f110 engine

**Criticality Code Justification:**

Agav

**Product Name:**

Support bracket

**Special Features:**

Drilled holes have nut plates attached. Material thickness is 0.080 inches

**Material:**

Nickel alloy

**Material Specification:**

Ams 5599 assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A042a0
