Width:

Between 24.0 millimeters and 26.0 millimeters

Length:

Between 8100.0 millimeters and 8300.0 millimeters

End Application:

Nsn 5865-01-488-9308; detecting systems, countermeasures

End Type:

Both plain

Attachment Method For Which Designed:

Heat seal

Special Features:

Belt must be pre-tensioned with a force of 1500n for min. 1 hour; length measured with 50n pulling force; ends melted after cutting; breaking load 11500n

Color:

Black

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T372-b
