Overall Length:

1.625 inches

Overall Height:

1.188 inches

Overall Width:

1.500 inches

End Application:

Emergency dri

Accessory Components And Quantity:

Bolts 2; bottom plate 1; top plate 1

Product Name:

Vibration damping pipe clamps

Special Features:

Available in standard, medium pressure, or heavy duty; temperature range from -22 to +212 degrees f

Functional Description:

For supporting pipes in hydraulic systems; standard, medium-pressure, and heavy duty clamps have a polypropylene insert that absorbs shock and dampens noise and vibration

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
