Hole Diameter:

Between 0.164 inches and 0.172 inches

Width:

2.000 inches

Edge Shape:

Rectangle, multi holes

Length:

2.460 inches

Hole Quantity Along Width:

3

Corner Bevel Length:

0.400 inches

Securing Device Type:

Special

Mounting Opening Shape Style:

Unthreaded hole

End Application:

Fixed wing aircraft, lockheed martin f16

Special Features:

Subassembly is inlet fan module; refer to t.O. 2j-f100-13-6 wp 425 00

Material:

Steel comp 347

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A531c0
