Cross Sectional Shape:

Flat

Width:

31.190 inches

Edge Shape:

Rectangle, no holes

Length:

32.010 inches

Body Thickness:

0.500 inches

Securing Device Type:

Hinge

End Application:

ENDI-TE-MNS-N:23

Product Name:

Door, access, engine compartment

Material:

Aluminum alloy 5083

Material Specification:

Mil-a-46027 military specification all material responses

Surface Treatment:

Paint

Surface Treatment Specification:

Paragraph 2.0.Paragraph 2.0 exterior paint system dwg 12350824 mfr ref all treatment responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A531n0

Mil-std (military Standard):

Mil-a-46027 spec.
