End Application:

Carrier, full tracked, m113

Face Size:

1.250 inches diameter

Special Features:

Thickness one inch; pull 22 pounds; mounting hole sizing 1/4 inches - 20, magnetic strength medium; color gray; maximum temp 428 degrees f; machine standard and alcomax ii with an abrasive grinding wheel

Material:

Aluminum-nickel-cobalt alloy

Material:

Aluminum alloy

Shape:

Cylindrical

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T174-a
