End Application:

M1a1, next assembly p/n: 12325494-1

Latch Barlength:

2.850 inches

Special Features:

Heat treatment: quench and temper rockwell c 36-40. Coat entire part with preservative oil vv-l-800.

Material:

Steel comp 4130

Material Specification:

Astm-a322 assn standard all material responses or astm-a331 assn standard all material responses or ams6348 assn standard all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A53000
