Design Type:

Friction

Special Features:

Item is rectangular with champhered corners; 1.220h x 2.746l with a 0.531 hole drilled in the lower right hand corner of item.

Material:

Nickel alloy

Material Specification:

Qq-n-281 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A539I0
