Overall Length: 3.340 inches Overall Height: 0.625 inches Base Thickness: Between 0.025 inches and 0.091 inches End Application: Aircraft,3c orion Leg Thickness: 0.064 inches Product Name: T section extruded
Overall Height: 0.625 inches Base Thickness: Between 0.025 inches and 0.091 inches End Application: Aircraft,3c orion Leg Thickness: 0.064 inches Product Name:
0.625 inches Base Thickness: Between 0.025 inches and 0.091 inches End Application: Aircraft,3c orion Leg Thickness: 0.064 inches Product Name:
Base Thickness: Between 0.025 inches and 0.091 inches End Application: Aircraft,3c orion Leg Thickness: 0.064 inches Product Name:
Between 0.025 inches and 0.091 inches End Application: Aircraft,3c orion Leg Thickness: 0.064 inches Product Name:
End Application: Aircraft,3c orion Leg Thickness: 0.064 inches Product Name:
Aircraft,3c orion Leg Thickness: 0.064 inches Product Name:
Leg Thickness: 0.064 inches Product Name:
0.064 inches Product Name:
Product Name:
T section extruded
Distance From End To Leg Along Length:
1.250 inches
Material:
Aluminum alloy 7075
Material Specification:
Qq-a-200/11 federal specification single material response
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A042a0
