View Online at https://aerobasegroup.com/nsn/5340-01-548-2016

End Application:
Aircraft assembly, nodel code for the v-22 aircraft
Design Type:
Friction
nside Diameter Length:
0.695 inches
Product Name:
Cap, protective, dust. Cap, end
Special Features:
Penetrant inspect per astm e 1417. Type 1 fluorescent dye, sensitivity level 3 hig () . Relvenant indications are not acceptable. Traceability
control by lot number required.
Material:
Titanium alloy
Shelf Life:
N/a
Unit Of Measure:
-
Demilitarization:
No
Filg:
A539k0
